## STK- 8KD STRAIGHT HANDLE AUTO SHUT OFF- PUSH START SCREWDRIVER

\* Air supply stop automatically, when the locking screw reaches the preset torque, Chuck stops automatically easier

\*Quickly to set the torque (#1 Phillips) From external to set the torque quickly

\* Fixed button designed, make the operation for positive and reverse turn easier

.... \* Higher efficiency motor provides strong torque output

\* High stable deceleration system High wear- resistant, high- precision gears provides accurate torque output

... \* Got patented design for new torque control system Provides high accuracy repeatability, high stable production performance, longer life time

\* High comfort grip, non- slip, anti shock for safety handle

Bit Hex 6.35mm (1/4")

-9.50-

\* Quick change chuck with easy and safe to operate
